**Ideal for vegans, Paleo diets,  
and low-carb diets**

**Made from 100% natural and  
organic ingredients**

## PRODUCT DESCRIPTION

Innocent Chocolate™ is a carefully formulated, organic dark chocolate that contains proven and highly effective functional ingredients to safely block the absorption of sugars, starches, and fats in our diets. More than 10 published clinical studies support the efficacy and safety of the functional ingredients in addressing blood sugar levels and blood lipid levels.\*

Innocent Chocolate™ is formulated as an all-natural dark chocolate derived from finest quality organic cacao beans raised through the EarthCorp Foundation programs which economically elevate small farmers while preserving and restoring our planet's environment. Innocent is always sugar-free and totally allergen-free<sup>1</sup> with no fillers or anything synthetic.

## HEALTH BENEFITS

The functional ingredients in Innocent Chocolate™ have been proven in numerous clinical studies to perform two primary actions: slowing down the digestion of sugars and starches to reduce their absorption, and support healthy post-meal triglyceride levels. Even more, Innocent is the world's highest antioxidant chocolate.

The patented blend from InSea2® serves a dual action, reducing the rate of digestion of sugars (sucrase inhibition) as well as starches (amylase inhibition), while the additional L-arabinose supports further sucrase inhibition.\* The Alpha-Cyclodextrin in the patented FBCx product support healthy post-meal triglyceride levels.\*

Innocent Chocolate's™ patented blended formulation is currently undergoing additional clinical trials to support the synergistic-like results seen with the formulation in use. Human clinical trials have shown that consumption of the active ingredients in Innocent Chocolate™ may help maintain healthy blood sugar levels in persons already having a healthy range.\*
